## About Me

I am a front-end and blockchain developer with 3+ years of experience. My skills include HTML, CSS, Tailwind, JavaScript, Firebase, ReactJS, TypeScript, and NextJS. In addition to building engaging and user-friendly web experiences, I have hands-on experience in blockchain technologies, including creating decentralized applications (dApps) and working with smart contracts. I am proficient in cryptographic principles, blockchain transaction analysis, and tools such as Web3.js, Truffle, Python, and Solidity. I am detail-oriented, well-versed in both front-end and blockchain development, and constantly improving my skills and knowledge of new technologies.

## Work Experience

*Front-end web developer | CodeArena | January 2021 - September 2023*

- Developed responsive, user-friendly interfaces and optimized performance for quick loading.
- Wrote clean, maintainable code, ensured cross-browser compatibility, and stayed updated with industry trends.

*Blockchain developer | Deep Learning Lab (DLL) | September 2023 - August 2024*

- Developed decentralized applications (dApps) and smart contracts using Ethereum.
- Implemented cryptographic principles and blockchain transaction analysis.
- Worked with tools like Web3.js, Truffle, and Solidity to build and deploy blockchain solutions.
